Rainforest Wildlife Encounters

with
David Armbrust

Maximum group of four

A unique rainforest experience and glimpse of outback Australia with David Armbrust

Secretive mammals

and Shy Birds

Red-legged Pademelon (Thylogale)

The afternoon is a total contrast in both eco-systems and wildlife as we travel further west into the dry eucalypt forest of the Australian Outback.

All guiding is done by **David Armbrust**, a true Aussie local with a lifetime of living in the region and over 24 years guiding experience in the Wet Tropics.

Our tour vehicle, a modern, comfortable 4 wheel drive Toyota Landcruiser, is well suited for your escape off the beaten track into areas not visited by mainstream tourism.

David Armbrust

Choose a full day **Rainforest and Outback Safari** or a half day **Rainforest Tour**.

Observe the unique and wondrous wildlife of the Daintree Rainforest and the Australian Outback on our highly personalised excursions. Both tours are limited to a maximum of four guests.

We utilise our own rainforest property, **Thylogale**, situated in the mountains to the west of Port Douglas to provide you with an unforgettable wildlife experience.

The day begins at Thylogale walking through our private rainforest where normally shy marsupials and birds emerge from their natural habitat to greet us.

If you have chosen the full day **Rainforest and Outback Safari** we continue on from Thylogale to World Heritage listed Mount Lewis National Park.

Luncheon becomes a highlight – sumptuous barramundi and fresh salads served beside the confluence of two streams in World Heritage rainforest.
